sanitary-epidemiological welfare of the population**

and RISE-2022 meeting on environmental health

DEDICATED TO THE 100-TH ANNIVERSARY
OF THE RF SANITARY-EPIDEMIOLOGICAL SERVICE

Dates: **May 18-20, 2022**

XII All-Russian Scientific and Practical Online Conference
with international participation “Health Risk Analysis – 2022.
Fundamental and applied aspects of providing sanitary-
epidemiological welfare of the population” is going to be held
in Perm on 18–20 May 2022.

The Conference starts at 10:00 on May 18 in the format of an
Internet forum on the website fcrisk.ru/forums/ and will last
until May 20, 2022.

HOSTS OF THE CONFERENCE:

Federal Service for Surveillance over Consumer Rights protection and Human Wellbeing
Federal Scientific Center for Medical and Preventive Health Risk Management Technologies
Perm Regional Office of the Federal Service for Surveillance over Consumer Rights
protection and Human Wellbeing
Medical Science Division of Russian Academy of Sciences
Perm State Medical University

WITH THE PARTICIPATION OF:

RISE, a specialized group on the environment and health

SCIENTIFIC SCOPE:

- The sanitary-epidemiologic service in Russia: history of development and achievements in preserving health of the country population.
- Fundamental, scientific, methodological and legal aspects of assessment, forecasting and management of risks to public health.
- Technologies, methods and criteria in analyzing and forecasting the sanitary-epidemiological situation; digital, technological, intellectual, and analytical systems.
- Quality of the environment and COVID-19: new knowledge, challenges, and research prospects.
- New ways to accomplish control over conforming to requirements fixed in the sanitary legislation, including remote and no-contact control.
- Best available practices in health risk assessment within the National Projects “Ecology”, “Demography”, “Housing and urban environment”, “Elimination of hazardous objects”, forecasting the life expectancy of the population.
- Risk analysis in occupational health.
- Up-to-date techniques for diagnostics, correction and prevention of health disorders associated with risk-generating factors of the environment, labor, education, lifestyle, and socioeconomic conditions.
- Assessing and compensating for harm to health caused by violations of the mandatory requirements established by the sanitary legislation.
- A contest of works accomplished by young scientists.

THE PROGRAM OF THE CONFERENCE INCLUDES:

- holding plenary and breakout sessions, round tables, panel discussions;
- poster presentations;
- holding a contest “the best work by a young scientist”.

The place of the online conference: fcrisk.ru/forums/

CONFERENCE FORMAT:

The following sessions will be organized on the internet conference website:

- Session of plenary presentation reports, where video-reports by key speakers (*.mp4/*.avi) and reports in presentation format (*.ppt, *.pptx or *.pdf) will be presented in accordance with the discussion areas;
- Session of electronic poster reports (*.pdf);
- Session dedicated to the “Contest of works by young scientists”, video-reports (*.mp4/*.avi) or presentations (*.ppt, *.pptx или .pdf);

CONFERENCE FORMAT:

Discussion of video and presentation reports will take place in the form of a question-and-answer forum on the conference website.

The rules and program of the conference will be posted on the website of the Internet conference: fcrisk.ru/forums/

The collection of scientific papers of the conference, abstracts of the conference reports translated into English (Proceedings) will be posted on the conference and also indexed in the RSCI database of the scientific electronic library E-LIBRARY.

As a result of the conference, the best articles will be recommended for publication in a special issue of the Health Risk Analysis Journal included in the list of the Higher Attestation Commission and in the Scopus international database.
